Introduction

The EW-PIS1702-1FE is a 10/100M industrial PoE fiber switch. It has 1*10/100M PoE port and 1*155M SC slot port, Port 1 can support IEEE 802.3af/at PoE standard, single port PoE power up to 30W, the maximum PoE output power is 18W (at-36W). As a PoE power supply device, it can automatically detect and recognize the power receiving equipment that meets the standard and supply power through the network cable. It can supply power to POE terminal equipment such as wireless AP, web camera, VoIP phone, industrial sensor through network cable, and meet the network environment that needs high-density PoE power supply. It is suitable for intelligent transportation, rail transit, electric power, mining, metallurgy and green energy. Industrial scenes such as construction set up a cost-effective and stable communication network. Unmanaged model, plug and play, no configuration, easy to use.
